## New Immunization Requirements for the 2010-2011 School Year

### Kindergarten

The Center for Disease Control has released new immunization requirements for the 2010-2011 school year. **Students at Miami Heights Elementary School entering into Kindergarten in 2010 will be required to have a 2<sup>nd</sup> dose of varicella vaccine as well as a 4<sup>th</sup> dose of polio vaccine having been administered on or after the student's 4<sup>th</sup> birthday.** Documentation from your child's healthcare provider must be on file at the school to prevent exclusion. The reason for this early notification is to provide time for you to schedule an appointment with your child's healthcare provider to receive the varicella and polio immunizations and/or obtain documentation of compliance in obtaining these vaccines.

### 7<sup>th</sup> grade:

The Center for Disease Control has released a new immunization requirement for the 2010-2011 school year. **Students at Three Rivers Middle School entering into 7<sup>th</sup> grade will be required to have a Tdap (tetanus) booster.** Documentation from your child's healthcare provider must be on file at the school to prevent exclusion. The reason for this early notification is to provide time for you to schedule an appointment with your child's healthcare provider to receive the Tdap immunization and/or obtain documentation of compliance in obtaining this vaccine.

**Again, as with other school immunization requirements, students who do not provide documentation of immunization are subject to exclusion from school. To avoid exclusion, we are encouraging you to make an appointment with your healthcare provider to have time to receive immunizations and/or documentation of having received immunization(s) before school begins on August 26<sup>th</sup>, 2010.**

**Please feel free to contact me or your healthcare provider with any questions or concerns.**

Sincerely,

**Holly Nicolaou, RN**
