

Three Rivers School District

A Learning Community Committed to Excellence

Thank you for supporting the Three Rivers School District! Because of the residents' support, the community will have a new Pre-K through 12th grade school. This new school will serve current students and future students for decades and will allow the opportunity to provide the learning environment needed in order to teach Skills for the 21st Century. The legacy you are helping to establish will benefit today's students and future generations of students.

The design of the new school will begin immediately. If you have expertise, skills, or a keen interest in the design process, please contact me at rbohannon@three-rivers.org. Committees will be formed to address various aspects of a building's design including the outside and/or structural component, classrooms, community areas, media center, office and conference areas, technology, playfields, parking, and more. Help us build a school that the entire community can benefit from and utilize to the fullest.

The design process will take approximately one year. Ground breaking will take place after the design process has been completed. The actual construction of the new school will take approximately two years. For Three Rivers, this means that the new school should be ready for the 2013-2014 school year.

In addition to designing the new school, a committee will be formed to investigate and pursue the use of Taylor High School. This could take the form of developing partnerships, leasing all or portions of the building, or selling the property for development purposes.

Committees will also be formed to design the closing ceremony for each of the schools that have served this community for so long and schools that will always be an important part of the history and traditions of this school district.

Again, thank you on behalf of the students, future students, and volunteers who worked so hard to make this dream a reality for the Three Rivers Community.

Sincerely,

Dr. Rhonda Bohannon

Superintendent, Three Rivers Local School District
