## Senior Memories

1991-1992. The year the Senior class finally gets a chance to shine. Many thought that June 4, 1992 would never come fast enough. But soon we realized all the things we would be missing after graduation and just how much we'll miss the things that have been such a big part of our lives for the last four years. Suddenly we are doing the things we have been experiencing for the last time. Our last football and basketball homecomings, the Christmas dance, and Spirit Week became very important to us. Senior nights soon took on a special meaning and the idea of graduation soon began to sink in. Graduation plans; the ordering of announcements, caps and gowns; and college applications made graduation seem closer than ever. The craziness of applying to college and trying our best to pass the classes needed to graduate put a heavy burden on our shoulders. Being a Senior certainly does not come without responsibilities.

We have all developed very special friends over the years and the thought of what the future holds in store can be frightening. But we will always have the special and unique memories that only the class of 1992 can have. Yes, we have made an impression on Taylor High School, and we have made sure Taylor will never forget us. We are the class of 1992 and wherever our paths may lead us in the future there will always be the road that leads us back to our memories.

Smiling happily at Academic Awards Night, Janet Higdon and Mary Sturgil hold on to certificates received for being so helpful in the school cafeteria.
