

# SACC Tuition/Fees

## About The Y's Kids Program:

Our program is licensed through OJFS, and follow all of the state's regulations. The purpose of our Child Care program is to meet the developmental needs of school-aged children and to serve family needs for quality care before and after school hours. The program focuses on facilitating the child's sense of industry, promoting a sense a competence, creating an environment conducive to positive peer interaction, which encourages initiative, and supports growth of self-direction and free choice under the guidance of nurturing and caring staff. Our goal is to complement the school (not duplicate it), and to emulate a warm home setting with intellectual stimulation, supportive of the school age child's emotional, social, cognitive, and physical developmental needs. Our program assists children in developing positive attitudes of caring, respect, honesty, and responsibility for themselves and others. Our programs are all Step Up To Quality rated, this is a reflection of staff training, staff education, program quality, parent involvement and more.
