Step up to Quality 5 Star Program

**5-STAR
AWARD
WINNER!**

Ohio | Department of Education
Department of Job and Family Services

- [Step Up To Quality](#) is a five–star quality rating and improvement system administered by the Ohio Department of Education and the [Ohio Department of Job and Family Services](#).
- SUTQ recognizes and promotes learning and development programs that meet quality program standards that exceed [preschool licensing](#) and [school age child care licensing](#) health and safety regulations.
- Step Up To Quality program standards are based on national research identifying standards which lead to improved outcomes for children.
- Teacher and educational assistants participate in at least 16 hours of professional development each year.

Curriculum & Assessment

- Creative Curriculum is a comprehensive, research-based curriculum that promotes exploration and discovery as a way of learning, enabling children to develop confidence, creativity, and lifelong critical thinking skills.
- We work closely with Hamilton County Education Service Center (HCESC) and their early childhood department to develop units and get materials.
- We alter curriculum every year, so students who attend multiple years are engaged and not repeating the same units year after year.

Assessment

- Early Learning Assessment is required by the state to be given twice a year.
 - The assessment is designed to aid teachers in determining where children are in their readiness for kindergarten. The assessment focuses on seven areas of a child's growth and development:
 - **Social Foundations** (including social and emotional development, and approaches toward learning)
 - **Mathematics**
 - **Science**
 - **Social Studies**
 - **Language and Literacy**
 - **Physical well-being and motor development**
 - **Fine Arts**
