SCHEDULE CHANGES

Preparing the master schedule and individual schedules is a very important and involved process. Parents and their student should devote adequate thought and planning to course selections prior to submitting course requests. After the course selection sheet has been turned in and entered into the computer, it will be considered a final schedule request.

A student may make a schedule change only under one of the following circumstances:

- 1) **Administrative Error**
- 2) **Academic level change that is found to be in the best interest of the student** (teacher/counselor recommendation)
- 3) **Dropping a study hall.**

Students in grades 9 – 12 must maintain enrollment in six (6) courses. If a course is dropped before Sept. 1st (Jan. 26th – 2nd semester), students will receive a “W” on their report card and transcript. If the course is dropped after Sept. 1st (Jan. 26th – 2nd semester), a “W/F” (withdrawn/failure) will show on their report card and transcript as well as reflect in their GPA. If a student wishes to add a course in place of a study hall, he/she must notify his/her counselor prior to the first day of school. Any exceptions must receive administrative approval.

Students are responsible for all course fees once final course selections have been entered unless a change is made due to administrative error or academic level change as listed above.

Making good decisions about course selections is critical for students to consistently progress toward graduation. Our counselors, teachers and administrators are all available to provide any information and guidance during the course selection process to help ensure that the best possible scheduling decisions are made.
